Amateur-Built Aircraft and More! Learn, Build, Fly, Inspire

We have a lot going on and invite you to check us out and consider joining in the fun. Our meetings are on the third Saturday of the Month, usually at the Ryan Airfield Admin Building 11 miles west of I-19 in Tucson on State Route 86.

Project Meetings and other chapter plans are posted on the Chapter Website which should be reviewed for specific dates, locations, and meeting details.

Our meetings include visits to local aircraft projects, information sharing sessions, workshops, presentations on interesting aviation topics.

The Young Eagles program has dedicated more than 25 years to giving youth ages 8–17 their first free ride in an airplane. It's sole mission is to introduce and inspire kids in the world of aviation. Today, more than 2 million young people have enjoyed a free introductory flight through the Young Eagles program. These flights are made possible through the generosity of EAA member volunteers.

EAA Eagle Flights®

EAA's Eagle Flights is a free introductory flight experience and informal mentoring program designed to welcome and encourage adults who want to discover flying, but don't know how or where to take that first step. It begins with a hands-on introduction, where you'll fly with a local EAA-member pilot who will let you follow along at the controls of the airplane to get a feel for what being a pilot is all about.

After the flight, he or she can help you learn more about how to get involved in your local aviation community, including the next steps you can take on the path to becoming a pilot.

The best part? The whole experience is free. No sales. No pressure. Just a whole lot of fun and education with a big take-home point: Your dream of flying is a lot closer than you think.

SportAir Workshops

You have the dream. Now begin to turn it into a reality through EAA's SportAir Workshops. These weekend workshops held across the United States will launch you on the most satisfying and rewarding adventure of your life - building your own airplane.

Get hands-on and gain the skills, techniques, and, most importantly, the confidence to take you all the way to that first fabulous flight.

Take the first step toward fulfilling your dream of homebuilt flight with SportAir Workshops.
